### DETAILED ACTION

1. Claims 1-7, 14-18, 34-37 are pending.

### ***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1-7, 14-18, 34-37 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 (line 9-12), the recitation “....poly(ethylene glycol 30) ..... polyoxyethylene 15....” is considered indefinite because one of ordinary skill in art would not know what it means and therefore would not understand the metes and bounds of the claims. Applicants must recognize that tradename are not allowable in a claim because product associated with a product tradename can change without any notices.

Applicant's arguments filed May 26, 2006 have been fully considered but they are not persuasive. Applicants argue that the recited "poly(ethylene glycol-30)-co-dipoly(hydroxystearate)" is a term well recognized in the art in of exhibit B (page 1244) of the response filed May 26, 2006. However, the examiner disagrees because exhibit B (page 1244) only disclose PEG-30 dipolyhydroxystearate which has a technical name of polyethylene glycol (30) dipolyhydroxystearate, not the recited "poly(ethylene glycol-30)-co-dipoly(hydroxystearate)" as claimed.

Regarding the claimed "polydimethylsiloxane-polyoxyethylene 15 polymer/3-isocyanateomethyl-3,5,5-trimethylcyclohexyl isocyanate copolymer", applicants argue that "polyoxyethylene" is equivalent to "polyethylene glycol" in view of exhibit B (page 338). However, the examiner is unable to locate the argued term "polyethylene oxide 15" as claimed in exhibit B (page 338).

Applicants must recognize that claim 1 is attempting to claim compounds having a specialized name where the punctuation, the deletion or the addition of term such as "-co-" would render the specialized name indefinite. For example, PEG-20 distearate can have synonyms of POE (20) distearate and PEG 1000 distearate, where the punctuation is of paramount importance.

For the reasons set forth, above, the 112 rejection set for Claims 1-7, 14-18, 34-37 is proper.

***Conclusion***

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
